

Cledford
Primary School
a brighter future together

Class Teacher - Mrs Lucy Appleton

Growing up with my mum as a teacher, I always aspired to be just like her. After completing my PGCE at Cambridge University, I have now been teaching for eight years. I was fortunate enough to join the Cledford team six years ago!

My specialist subject is maths and I love it! As a child, I always found maths difficult and it was not a subject I particularly enjoyed at school. I love to use my own experience as my motivation to ensure that all children can access maths at school, they are enthusiastic about it and feel confident in solving problems!

In my leisure time, I love walking in the beautiful countryside, having picnics and camping with my husband and my little girl, Emmeline. Travelling to different countries around the world is my favourite thing to do! The most beautiful countries I have visited are Vietnam and Cambodia! I would love to go back there someday. When I am at home, my time is spent with a cup of tea and cuddling with Emmeline and our two cats, Bonnie and Lottie.

"You're off to great places, today is your day. Your mountain is waiting so get on your way." Dr Seuss.
